Discovering the Value of Lotus Quickr

AN IBM PROOF OF TECHNOLOGY

Date: May 20, 2009

Time: 8:30 AM – 4:30 PM

Location: Atlanta, GA IBM Office, 4111 Northside Parkway

INTRODUCTION

This Proof of Technology (PoT) utilizes hands-on scenarios and informative presentations to show customers how IBM® Lotus® Quickr, “the fastest way to share everyday content with teams”, makes it easier to collaborate without barriers. Lotus Quickr is a Web 2.0-based team collaboration offering that transforms the way everyday business content, such as documents and rich media, can be shared to enable more effective team collaboration. This session is designed to demonstrate the capabilities of Lotus Quickr and the Quickr connectors, showing how sharing information can be a transparent and natural extension of the way users work everyday.

OBJECTIVE

The objective of this session is to explore how Lotus Quickr can make the sharing of content easier, more intuitive, and more efficient. After attending this session, participants will be able to:

- Describe the business value of using Lotus Quickr to share content
- Understand the capabilities and architecture of the product and how it complements other commonly-used applications
- Take action with next steps for implementing a successful pilot

AUDIENCE

This session is intended for technical decision makers and decision influencers. The first half-day may also be useful to end users who are looking to implement a collaboration/document management solution.

AGENDA

- | | |
|---|---|
| 2. Introduction | 8. Lab - Using Quickr Entry |
| 3. The Business Value of Lotus Quickr | 9. Customizing Quickr |
